Graded Exams Returned to Proctors	April 28, 2023	May 18, 2023
Available for Individual Purchase	April 17, 2023	May 8, 2023

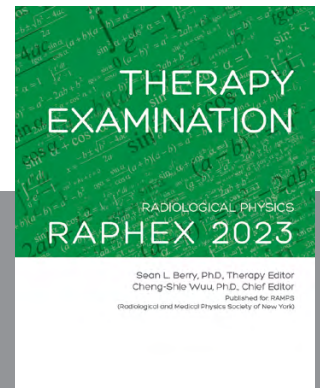

PROCTORS: AN ONLINE BUBBLE SHEET EXAM OPTION WILL BE AVAILABLE.

A proctored exam is an exam in which a person monitors the test takers over three hours and then collects the answer sheets. RAMPS and MPP request that this protocol be followed in order to maintain the integrity of the national rankings.

Published in cooperation with the Radiological and Medical Physics Society of New York (RAMPS), the Diagnostic and Therapy Exams have approximately 140 questions each. General questions are included in each version. A separate answer booklet for each examination is included which provides explanations for the correct answer.

The **Raphex 2023 Diagnostic Exam** includes image-based questions to more closely match the format of the American Board of Radiology (ABR) Diagnostic Core exam. Images are in color when applicable.

The **Raphex 2023 Therapy Exam** includes topics in IMRT, VMAT, IGRT, SRS/SBRT, plus other special procedures and techniques in radiotherapy. Traditional topics in previous exams are still covered. The exam matches ASTRO's current physics curriculum guidelines for resident instruction.
