Graded Exams Returned to Proctors	May 7, 2026	May 21, 2026
Available for Individual Purchase	April 24, 2026	May 8, 2026

PROCTORS: AN ONLINE BUBBLE SHEET EXAM OPTION WILL BE AVAILABLE UPON REQUEST AND WITH PURCHASE.

A proctored exam is an exam in which a person monitors the test takers over three hours and then collects the answer sheets. RAMPS and MPP request that this protocol be followed in order to maintain the integrity of the national rankings. To register your site, please fill out the gray proctor's information box at the bottom of the order form.

Published in cooperation with the Radiological and Medical Physics Society of New York (RAMPS), the Diagnostic and Therapy Exams have approximately 140 questions each. General questions are included in each version. A separate answer booklet for each examination is included which provides explanations for the correct answer.

The **Raphex 2026 Diagnostic Exam** includes image-based questions to more closely match the format of the American Board of Radiology (ABR) Diagnostic Core exam. Images are in color when applicable.

The **Raphex 2026 Therapy Exam** includes topics in IMRT, VMAT, IGRT, SRS/SBRT, brachytherapy, charged-particle therapy plus other technologies. Traditional topics in previous exams are still covered. The exam matches ASTRO's current physics curriculum guidelines for resident instruction.
