Suggested Exam Dates	April 12 - 15, 2022	May 10 - 13, 2022
Available to Individual Residents	April 18, 2022	May 16, 2022

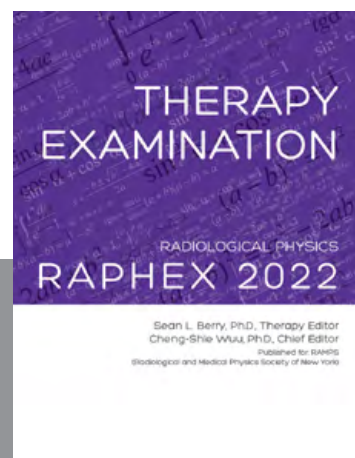

PROCTORS: ONLINE EXAM OPTIONS ARE AVAILABLE

Published in cooperation with the Radiological and Medical Physics Society of New York (RAMPS), the Diagnostic and Therapy Exams have approximately 140 questions each. General questions are included in each version. A separate answer booklet for each examination is included which provides explanations for the correct answer. The exams are created to be useful as practice tests, advance study guides, or exams for course credit.

The **Raphex 2022 Diagnostic Exam** includes image-based questions to more closely match the format of the American Board of Radiology (ABR) Diagnostic Core exam. Images are in color when applicable.

The **Raphex 2022 Therapy Exam** includes topics in IMRT, VMAT, IGRT, SRS/SBRT, plus other special procedures and techniques in radiotherapy. Traditional topics in previous exams are still covered. The exam matches ASTRO's current physics curriculum guidelines for resident instruction.
